3. INVESTMENT POLICY

Investment Objective and Strategy

The primary objective of the Fund is to generate income and seek capital appreciation over the medium to long term. The Fund will aim to achieve this investment objective by actively investing in diversified portfolio of Government and Corporate fixed income, sukuk, Repo, Reverse Repo, money market instruments, and other fixed income related instruments for hedging purposes.

Investment Strategy

The Investment Strategy will involve managing the credit risk and the duration of the overall portfolio based on market conditions. The duration play will be adjusted according to the interest rate outlook and global economic environment.

While constructing the portfolio, the primary objective will be to invest in securities with the intention to holding them for longer periods. However, as and when opportunities arise, we intend to capitalize on market conditions and anomalies by selling certain issues in the portfolio and realizing gains and reinvesting the proceeds in other issues.

Duration, coupon, and liquidity of the overall market will always be monitored in order to have a fairly liquid portfolio that is relatively immune to significant changes across the yield curve.

General Investment Restrictions

In attempting to achieve long-term capital appreciation for the fund, the investment manager would be required to adhere to the following restrictions that have been stipulated by the directors:

- (a) The Fund will invest at least 75% of its net assets in MENA region. However, in case of severe market conditions, the fund may maintain cash up to 100% of its NAV while notifying the CBB and the unitholders;

Governing Law

This Information Memorandum and other material contracts listed herein below along with the Fund Company’s Memorandum of Association and Articles of Association shall be governed by the laws of the Kingdom of Bahrain.

4. RISK FACTORS

An investment in the Units involves certain risks relating to the investment strategies of the Fund Company and the Investment Manager. Investing in the Fund is suitable only for the Expert Investors who is looking for a long-term investment and who understand the risks being involved. No representation is hereby made that the Fund's investment objective will be achieved. As with any other investment fund, there can be no assurance that the Fund will be profitable and that the Investors may not recover monies invested. The following is intended as a summary of certain investment considerations and risks associated with this investment, but is not exhaustive and must be supplemented by the Investors' own analysis of, among other things, Investors' personal or corporate financial circumstances.

General Risk

There will be no assurance that the investment objectives and strategies of the Fund will be achieved. The Fund could lose all or some of the capital it invests in any particular investment, which could have a significant adverse impact on the performance of the Fund as a whole. Market conditions and trading approaches are continually changing and the past success of an investment manager is not a guarantee of future performance. Past results are not necessarily indicative of future performance. No assurance can be given that profits will be achieved or that substantial losses will not be incurred. The price of the Units in the Fund can go down as well as up. An investor may not get back the amount he has invested, particularly if Units are redeemed soon after they are issued and if the Units have been subject to a Subscription Fee or transaction charge. The value of the investment is also subject to change from day to day, as the value of invested securities may be affected by changes in interest rates, economy, financial markets, or the news of concerned companies.

Market Risk

Investor in the Fund will be exposed to adverse changes in market prices, which will lower the value of the Fund, as a result of changes in market yields and increase in risk premium. The Fund manager may only be able to limit this risk partially, as it is subject to systemic factors, market cycles, and timing. Investors in the Fund will remain exposed to maturity/ duration risk of the underlying instruments arising from changes in interest rates. The long maturity bonds are generally more sensitive to rate shifts and hence will decline more in value assuming a parallel upward shift in rates.

Emerging Market Risk

The generally accepted accounting, auditing and financial reporting practices in emerging markets may be different from those in developed markets. In relation to mature markets, the regional markets on the other hand have a low level of regulation, enforcement of regulations and monitoring of investors' activities. In addition, the securities markets of these countries are not as large as the more established securities markets and may at times have relatively less trading volume, resulting in a lack of liquidity and high price volatility. There may be a high concentration of market capitalization and trading volume in a small number of stocks as well as a high concentration of investors and financial intermediaries. These factors may adversely affect

the timing and pricing of the Fund's acquisition or disposal of securities. Especially, due to the possible limited liquidity of the securities, the process of disposal of securities to meet the repurchase requests of the Units may not be carried out in a timely manner consequently deferring the payment of the repurchase proceeds and likely affecting adversely the price of the disposition of the relevant securities. The Fund's return may be expected to fluctuate in response to changes in the value of the underlying investments.

Liquidity Risk

Investors in the Fund are subject to liquidity risk as the Fund's investments in bonds have a limited secondary market and the primary markets in the region are still developing. In the event of Unusual Market Conditions, the Fund may not be able to honour all redemption requests. During periods of limited liquidity and higher price volatility, the Fund's ability to acquire or dispose of its investments at a price and time that the Fund deems advantageous may be impaired.

The Manager may directly or indirectly invest a portion of the Fund's assets in securities and instruments that are relatively illiquid and the Fund may not be able to readily dispose of such securities and instruments. This could prevent the Fund from liquidating unfavourable positions promptly and could subject the Fund to substantial losses. These circumstances could also impair the manager's ability to honour redemptions in a timely manner.

Credit Risk

Investors in the Fund are exposed to credit risk arising from the underlying investments in fixed income issues/instruments, short term instruments, and investments in other funds. Changes in an issuer's financial strength or the bond issue's credit rating may affect its value and, thus, impact the Fund performance.

Term of Investment

Debt investments by their very nature are moderate-risk investments with possible sudden decline in prices due to various factors resulting in a potential loss of capital. Therefore, investment in the Fund should be regarded as a moderate-risk investment, and there can be no guarantee that the Investment Manager will achieve the Fund's objective and the Investor will recover the full amount invested. Furthermore, an investment in the Fund should be viewed by applicants as of a long-term nature.

Absence of Voting Rights

Investors in the Units have no voting rights and do not participate in the management of the Fund Company or the Fund. Investors generally have no right to influence the management of the Fund whether by voting against, withdrawing, removing or replacing the Investment Manager or otherwise. Furthermore, Investors have no right to terminate any agreement to which the Fund is or may be a party.

Legal Status

The Fund is a collective investment scheme created by the Fund Company, and is structured as a contractual arrangement between the Fund Company and the Unitholders. This contractual arrangement is regulated and supervised by the CBB. The Fund is not registered under the

Commercial Companies Law. Therefore, the Fund does not have a separate legal status and the extent to which a Bahraini government agency or a Bahraini court, acting in the context of insolvency proceedings or proceedings for determining the Fund's liabilities, would uphold such distinction between the legal status of the Fund and that of the Fund Company and other collective investment undertakings of the Fund Company is unclear and to our best knowledge untested.

Beneficial and Nominee ownership

The legislative framework in some markets where the Fund may invest is only beginning to develop the concept of legal/formal ownership and of beneficial ownership or interest in debt instruments. Consequently the courts in such markets may consider that any nominee or custodian as registered holder of securities would have full ownership thereof and that a beneficial owner may have no rights whatsoever in respect thereof.

Absence of Transferability of Units

It is not anticipated that there will be a public market for the Units. The Units may not be directly or indirectly sold, transferred or assigned, by operation of law or otherwise, in whole or in part, without the prior written consent of the Investment Manager, which may be granted or withheld in its sole discretion. Any attempt to transfer Units, other than by way of repurchase in the manner described in this Information Memorandum, constitutes a tender to the Investment Manager for the repurchase of Units.

Conflicts of Interest

Under Bahrain Law, an Investment Manager is obligated to act for the benefit of the Fund with respect to matters within the scope of the Investment Management Agreement. The Directors will seek to ensure that no actual conflict of interests will arise.

The Investment Manager may provide investment management services to funds and managed accounts other than the Fund. These funds and accounts may have fee structures or other features that are different from or more beneficial to the Investment Manager than those of the Fund. Although the Investment Manager has contractually committed to treating all accounts fairly, this may create the appearance of an incentive on the part of the Investment Manager to favour accounts with more beneficial structures, and it is therefore possible that any of them may in the course of business, have potential conflicts of interest with the Fund. In the event of an actual conflict arising, the Directors will endeavour that such a conflict will be resolved fairly.

The Administrator, the Investment Manager, the Custodian, the Registrar will not be devoting their full business efforts to the activities of the Fund. This may involve a conflict of interest with respect to the commitment of resources. The Investment Manager intends to devote sufficient time to the Fund's activities to properly manage or provide investment advice to the Fund.

Custodial Risk

Risks exist with respect to the operations and services offered by the Custodian. The assets of the Fund will generally be held by the Custodian directly or through its agents, sub-custodians, or delegates pursuant to the Custodian Agreement. However, in accordance with market practice

assets may be transferred from the effective and exclusive control of the Custodian and placed in trading accounts accessible by third party brokers. The Custodian may also, on the instructions of the Fund or the Funds Company, open accounts with any bank or financial institution (including any bank or financial institution which is not a member of the HSBC group) and instruct the Custodian to place cash of the Fund in such accounts. The Custodian shall control and operate the bank accounts but will not be responsible or liable to any person whatsoever, (including the Fund and the Funds Company) in respect of any loss of the cash, securities and/or other assets comprising the assets of the Fund held in such accounts or not deposited with or held to the Custodian's order, occasioned by reason of the liquidation, bankruptcy or insolvency of such bank, financial institutions or other person.

The Custodian may also on the instruction of the Fund or the Funds Company leave shares in trading accounts in various stock exchanges/depositories for the purchase and sale of Investments in the name of the Fund where the shares are credited into the trading account. The Custodian shall monitor and reconcile timely and promptly the level of Investments held in such trading accounts and inform the CBB of any discrepancies. However, the Custodian will not be responsible for the loss suffered by the Fund for shares held in these trading accounts.

Economic and Political Stability

Investment in GCC Countries may carry a high degree of economic and political risks. On the economic front, the economies of GCC Countries, while striving to diversify, are primarily oil-driven economies. A prolonged period of low oil prices can potentially affect the economic health of the GCC Countries' economies and may result in an overall recession in the region.

Taxation

The Fund Company, with the assistance of the Investment Manager, will take reasonable steps to mitigate the Fund's tax liabilities (if any). Investors should review carefully this Information Memorandum and the Subscription Agreement and discuss with their tax advisors the specific tax and other consequences of investing in the Fund.

Mandatory Repurchase

Compulsory repurchase may result in the liquidation of investments under conditions less favourable as the liquidity of some of the underlying assets may not allow for an orderly liquidation at the prevailing market prices, and consequently result in loss to Investors.

Operational Risk

There may be risks relating to the operation of the Fund arising from the improper processing of transactions or deficiencies of the operating systems or control processes of the Fund, the service-providers of the Fund.

The foregoing is not a comprehensive list of investment risk factors, and potential Investors are urged to consult with their professional advisors as to the legal, regulatory, tax and business risks involved in this Fund.

The Registrar shall calculate the number of Units to be issued for each subscription application. Number of Units shall be calculated by using the amount received in the subscription account divided by the Subscription Price, the resultant number shall be rounded to the second decimal places. The subscription proceeds shall be the resultant of the Subscription Price multiplied by the number of Units being allotted, rounded to the nearest cent. The profit or loss as a result of such rounding shall be born at the account of the Fund.

Confirmations will be sent by the Registrar to each applicant upon approval of their application soon after the relevant Dealing Day, provided, the Subscription Price and the number of Unit to be subscribed are being calculated by the Administrator.

In case of over-subscription, whereby the Directors decide not to accept all subscriptions, allocation of Units will be at the discretion of the Directors. The process followed for allocation may, but is not limited to, the size, objectives and nature of the Investors. The result of the allotment will be notified by the Registrar to the relevant Investors within three Business Days from the relevant Dealing Day.

Combating Money Laundering

The Fund will comply with Bahrain's Legislative Decree No. (4) of the year 2001 with respect to Prohibition and of Combating Money Laundering and the various Ministerial Orders issued there under including, but not limited to, Ministerial Order No. (7) of 2001 with respect to the Institutions' Obligations Concerning the Prohibition of and Combating Money Laundering and any other regulations (AML and Terrorist Financing) issued by the CBB from time to time.

The Placement Agent is the main entity responsible for AML, Terrorist Financing, and KYC.

As a result of the applicable AML regulations, identification documentation is required along with the subscription request for Units. The Fund, the Fund Company and their duly appointed agents including the Placement Agent, its delegates and an authorized placement agent reserve the absolute right to require further verification of the identity of each potential Investor or that of the person or entity on whose behalf the potential Investor is applying for the purchase of the Units and/or the source of funds. This will be used to comply with these regulations and to verify the identity of the Investors and will remain confidential. Each potential Investor will be required to provide satisfactory evidence of identity and if so required the source of funds within a reasonable time period determined by the Fund. Pending the provision of such evidence, application for Units will be postponed. If a potential Investor fails to provide satisfactory evidence within the time specified, or if the a potential Investor provides evidence but the receiver of such evidence is not satisfied therewith, the application may be rejected immediately in which event the money received on application, if any, will be returned without interest payment.

Pooled funds or financial intermediaries will also be required to provide money-laundering regulations compliance declaration. The ultimate beneficial owners of the investment will be required to provide documentation, notwithstanding that the investment in the Fund may be made by another entity on their behalf. The Fund reserves the right to share relevant information of the Investors, for the purposes of satisfying internal compliance and AML procedures, with the Fund's associates including its Custodian and Administrator.

Repurchase

Units can be repurchased at the Repurchase Price on a weekly basis on each Dealing Day.

Application for the repurchase should be made by submitting the Repurchase Request Form received two Business days prior to the relevant Dealing Day (or such other day as may be determined by the Directors at their sole discretion). The signed Repurchase Request Form (by specifying the number of units and/or an amount to be repurchased for the relevant Dealing Day) should be sent to the Placement Agent (and/or its delegates) by facsimile with its original followed by post. Failure to provide the original Repurchase Request Form may result in cancellation of the repurchase request; none of the Fund, the Fund Company, the Directors, the Investment Manager and/or the Placement Agent (and/or its delegates) should be responsible for

any losses being incurred as a result of such cancellation. A request for repurchase once given cannot be revoked without the consent of the Directors (except during a period of suspension).

The Directors may exercise their discretion to accept short notice, otherwise, the repurchase request received after the deadline for the receipt of the Repurchase Request Form will be treated as a request for repurchase on the next Dealing Day.

The repurchase proceeds shall be calculated by the Registrar as follows:

If the repurchase is requested by the number of Units, the repurchase proceeds shall be the requested number of Units to be repurchased multiplied by the Repurchase Price where the resultant total being rounded to the nearest cent.

If the repurchase is requested by an amount, the requested amount divided by the Repurchase Price, and the calculated repurchased Units shall be rounded to the second decimal places. The repurchase proceeds shall be the number of Units so calculated multiplied by the Repurchase Price where the resultant total rounded to the nearest cent. The profit or loss as a result of such rounding shall be born at the account of the Fund.

Repurchase confirmation will be sent by the Registrar to each applicants on approval of their application soon after the relevant Dealing Day, provided, the Repurchase Price, the number of Units to be repurchased and the Repurchase proceeds are being calculated by the Administrator.

Mandatory Repurchase

In accordance with the Instrument, and by giving an Investor a minimum of seven Business Days notice, the Fund Company may compulsorily repurchase any Units if the Fund Company determines (in its absolute discretion) that those Units are purchased or held by, or for the benefit of, a U.S. Person, or by a person other than an Expert Investor.

In addition to the above, the Fund Company, acting at the recommendation of the Investment Manager, reserves the discretionary right to completely or partially repurchase Units held by any Investor at any time for any reason. The Investor must be notified in writing of such repurchase no later than 14 Business Days of such compulsory repurchase taking place. None of the Fund, the Fund Company, the Investment Manager, the Registrar or the Placement Agent (and/or its delegates) shall be in any way liable to any Investor by reason of such mandatory repurchase.

The Fund may, in its absolute discretion, repurchase all outstanding Units in the event of an exceptional decline in the value of the Fund's assets or a decline in the Fund's assets due to repurchases to a level insufficient to sustain normal trading by the Fund.

Transfer of Units

Every Investor shall be allowed to transfer (subject to the Director's consent to such transfer), in accordance with the provisions of this Information Memorandum, all or any part of the holding of Units registered in his name to one or more Expert Investors PROVIDED THAT the Director shall decline to register a transfer if in consequence thereof:

- (i) the proposed transferee is not an Expert Investor or intends to hold any Units for or as nominee for any person who is not an Expert Investor; or
- (ii) the proposed transfer and/or transferee is in breach of the law or requirements of any country or governmental authority in circumstances which in the opinion of the Director might result in the Fund, the Fund Company, the Directors, the Investment Manager, the Registrar, the Placement Agent (and/or its delegates), being in breach of any law or suffering any liability, cost, hardship, injury or any other issue whatsoever which such entity might not otherwise have incurred or suffered; or
- (iii) the proposed transfer is to any person or persons in circumstances (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Director to be relevant) which in the opinion of the Director might result in the Fund, the Fund Company, the Directors, the Investment Manager, the Registrar, the Placement Agent (and/or its delegates), or their respective directors, employees, agents or associates or any other Unitholders incurring any liability to taxation or suffering any other pecuniary, legal or regulatory disadvantage which such entity might not otherwise have incurred or suffered; or
- (iv) the proposed transferee is a person which may result in the Fund being required to comply with any registration or filing requirement in any jurisdiction with which it would not otherwise be required to comply.

Any person who acquires Units by way of transfer shall provide to the Placement Agent (and/or its delegates) such information and documents as the Placement Agent may request: (i) to enable the Placement Agent to determine that above pre-conditions are complied with; and (ii) concerning the establishment or verification of that person's identity or otherwise, to enable the Directors to comply with all applicable laws, including anti-money laundering laws.

The instrument of transfer of any Unit shall be in writing (in the form requested by the Placement Agent and/or its delegates to effect such transfer) and shall be executed by both the transferor and the transferee. The transferor shall be deemed to remain the holder of a Unit until the name of the transferee is entered in the Register.

Any Units transferred in contravention of any such restrictions shall be subject to transfer to a person who would not thereby be in contravention of any such restrictions as aforesaid or compulsory repurchase in the manner described above under the section headed "Mandatory Repurchase".

Suspension of Subscription and Repurchase of Units

Subject to the approval of the CBB, the Fund may (but is not required to) temporarily suspend the determination of the NAV and subscription and repurchase prices in respect of any Dealing Day upon the occurrence of one or more of the following events:

- (a) when the market or markets in which a substantial portion of the Fund's assets are invested or traded is or are closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended in a way that affects the valuation of the Fund's assets or where trading is restricted or suspended in respect of securities forming a material part of the Fund's assets;
- (b) the existence of any state of affairs as a result of political, economic, military or monetary events or circumstances outside the control of the Fund Company, including but not limited to delay in settlements, and where disposal of assets is not reasonably assured without materially affecting the value and interests of continuing Unitholders and calculation of a fair price;
- (c) any breakdown in the means of communication or computation or otherwise normally employed in determining the price or value of any of the investments made by the Fund for calculating the NAV of Units or valuing a significant portion of the investment of the Fund, or if the value of any asset or assets which is material to the calculation of NAV of Units may not be determined as accurately or rapidly as required;
- (d) imposition of foreign exchange restrictions or other restrictions affecting the transfer of funds and transactions on behalf of the Fund and potentially having a material impact on normal activities of the Fund including but not limited to purchase and sale transactions and flow of funds from one country to the other; or
- (e) if an order by a Bahraini court or Bahraini regulatory body, including the CBB, is issued requiring such suspension.

During the suspension period in relation to the calculation of the NAV, the Fund will not issue or repurchase Units and the Investors will not transfer Units. Any suspension of more than fifteen Business Days will be notified to the Unitholders. Any application received for subscription or repurchase during the suspension period shall be carried forward to the Dealing Day immediately after the expiration of the suspension.

All possible steps will be taken to bring the period of suspension to an end. However, the resumption of issuance of Units will be subject to CBB's approval.

Listing

The Fund is an open-ended scheme. The Investment Manager does not intend at the time of initial offering of Units to make a secondary market in the Units. The Fund Company may seek to list the Fund on the stock exchanges of any of the GCC Countries. As of July 22, 2013, the Fund is listed on Bahrain Bourse.

Voting and Ownership Rights

Units carry no voting rights with respect to the Fund. Units represent an ownership right, based on contract of the Investors in connection with the Fund but not in the Fund Company or any other collective investment undertakings launched by the Fund Company other than the Fund.

Ownership Restrictions

Investors may subscribe provided legislation or regulations in Bahrain and in their country of citizenship, residence, domicile or incorporation permits them to do so. U.S. Persons or U.S. residents as defined in Regulation S under the U.S. Securities Act of 1933 are not allowed to subscribe. Persons under age twenty-one are not allowed to subscribe unless he/she has the written authorization of his/her lawful guardian. Investors who do not meet the definition of “Expert Investors” are not permitted to subscribe.

6. DETERMINATION OF NET ASSET VALUE

The Investment Manager, Operator, and/or Directors cannot determine the Net Asset Value of the Fund. The Administrator will determine the Net Asset Value for each Class of share in the fund. The Net Asset Value calculations will be verified by the Auditor on a semi-annual basis in accordance with the terms of the Auditor's terms of engagement. The Net Asset Value will be calculated on the close of business on each Valuation Day and shall be notified to the Unitholder within two Business Days unless otherwise instructed by the Directors. The Net Asset Value will be published on the Operator's website.

Net Asset Value

In general, the NAV shall be determined by the Administrator on the accrual basis of accounting using International Financial Reporting Standards (the "IFRS") and reported in U.S. Dollars. However, valuation of the assets of the Fund may be adjusted reasonably and in good faith by the Administrator after consultation with the Directors. In the event that IFRS is amended and/or reinterpreted and/or the valuation of the assets of the Fund becomes inconsistent with current IFRS standards and/or otherwise inappropriate for the Fund, then the Administrator after consultation with the Directors shall calculate the NAV with the fair values and/or the reserves provided by the Directors in good faith. The official NAV calculated by the Administrator may therefore be different from the audited annual accounts which are prepared in accordance with IFRS.

1. Non financial assets such as accounts receivable, prepaid expenses and other accrued assets shall be valued on a historical cost basis. Where it is probable that the full amount will not be collectable, the asset shall be valued at an amount which the Directors deems to be recoverable.
3. Assets held for trading shall include cash, securities and derivatives held to generate profits from short term fluctuations in their market price. These assets will be valued at fair value as determined by the Administrator after consultation with the Directors.
4. Assets held to maturity shall include debt instruments with a finite maturity which the Directors intend the Fund to hold and which the Fund is able to hold to their final maturity. Such assets shall be valued at amortized cost (i.e., at original cost less any premium written off or with any discount recognized during the term of the asset added to the value of the asset).
5. Loans and receivables originated by the Fund and not held for trading shall be valued at amortized cost less any provision for impairment as determined by the Administrator after consultation with the Directors. When considering the amount of any impairment, the expected net future cash flows shall be used in valuing any such asset, discounted at the original effective interest rate for the asset.

6. Financial assets whose value cannot be reliably measured shall be valued at cost less any provision for impairment as determined by the Administrator after consultation with the Directors. When considering the amount of any impairment, the expected net future cash flows shall be used in valuing any such asset, discounted at the original effective interest rate for the asset.
7. Assets which are available for sale shall be those which do not readily fit into any of the categories above. These assets shall be valued at fair value, as determined by the Administrator after consultation with the Directors.
8. Where an asset is held as a hedge (both a fair value hedge and a cash flow hedge), the asset and the underlying hedged asset or liability shall be valued at fair value, as determined by the Administrator after consultation with the Directors. The effectiveness of a hedge shall be determined by the Directors. Changes in the fair value of fair value hedges are taken to the profit and loss account for the year and changes in the fair value of cash flow hedges are taken to reserves (to the extent that the cash flow hedge is effective in the view of the Directors; otherwise, the changes are taken to profit and loss).
9. The fair value of a financial asset shall be determined by any generally accepted methods, and, without limitation,
 - (a) where there is an active market, the fair value of the relevant asset shall be the official close price published by an organized exchange or quoted by a market maker (for these purposes, the term "official close price " means the price reported on the exchange for the day, commonly referred to in the market as the "settlement" or "exchange price", and represents a price at which members of the exchange settle their outstanding positions,
 - (b) and where an asset is not actively traded, then the last available "official close price" will represent the "exchange or settlement price" price as calculated and published by that exchange in accordance with its local rules and customs or quoted market prices shall otherwise be adjusted to reflect the lack of liquidity,
 - (c) where quoted prices are not readily available, the fair value of these financial assets shall generally be valued at cost, or at the last traded price, or in a manner consistent with that of other externally priced securities or market indicators, based on all the future cash payments and receipts that are expected to occur in respect of such assets, and may be further adjusted when necessary to reflect fair values more accurately,
 - (d) for options, the relevant option pricing model as determined by the Administrator (after consultation with the Directors) may be used to calculate the fair value, and
 - (e) the value of each interest in a Collective Investment Undertaking which is valued as at a Valuation Day shall be the fair value per unit, share or other interest in such Collective Investment Undertaking. The fair value will be determined by the Administrator after consultation with the Directors, and will normally be calculated with reference to the net asset value per unit, share or other interest in such Collective Investment Undertaking calculated as at that Valuation Day or if the Administrator after consultation with the Directors so determines or if the Collective Investment Undertaking is not valued as at that Valuation Day, at the discretion of the Administrator after consultation with the Directors either (1) the last published net

asset value per unit, share or other interest in such Collective Investment Undertaking (where available) or (if the same is not available) the last published repurchase or bid price for such unit, share or other interest or (2) the latest available estimate of the net asset value per unit, share or other interest in such Collective Investment Undertaking provided by the manager or the administrator of such Collective Investment Undertaking. If the net asset value of such Collective Investment Undertaking is calculated as at the end of each month with different business day convention from that of the Fund, the fair value as at a Valuation Day may be determined with reference to the last published price available whichever is closest to the Valuation Day of the Fund.

10. The liabilities of the Fund shall be all liabilities of whatsoever nature attributable to the Fund and shall include (without limitation):
 - (a) an amount in respect of the Management Fee, Performance Fee, the fees of the Administrator/Custodian/Registrar, and other service provider fees accrued to the date as at which the valuation is made but remaining unpaid;
 - (b) an amount of tax (if any) accrued up to the end of the last Financial Year end remaining unpaid;
 - (c) the price to be paid for Units which are to be repurchased shall be deemed to be a liability of the Fund from the Repurchase Day until the price is paid;
 - (d) any other fees, costs or expenses payable by the Fund but not paid on the relevant Valuation Day;
 - (d) an appropriate allowance for any contingent liabilities; and
 - (e) the aggregate amount for the time being outstanding of any borrowing effected by the Manager on behalf of the Fund and the amount of any interest and expenses accrued pursuant thereto but not paid.
11. Liabilities shall (where appropriate) be treated as accruing from day to day and financial liabilities held for trading, and derivatives, will be held at fair value and other liabilities will be measured at the original recorded amount less principal repayments and amortization.
12. Subject to IFRS, there shall be taken into account such sum (if any) as in the estimate of the Directors (after consultation with the Auditor) will fall to be paid or reclaimed in respect of all forms of taxation related to transactions down to the Valuation Day as at which the valuation is made.
13. Any value of any asset or liability or an investment in cash of the Fund in any currency may be converted into the equivalent value in U.S. Dollars at the rate (whether official or otherwise) which the Administrator shall deem appropriate in the circumstances having regard to any premium or discount which may be relevant and to costs of exchange.
14. Any expense or liability of the Fund may be amortized over such period as the Directors may determine and the unamortized amount shall be deemed to be an asset of the Fund. The price to be paid for Units which have been applied for shall be deemed to be an asset

of the Fund and any costs in connection with that issue shall be deemed to be liabilities of the Fund at the beginning of the Business Day following the relevant Dealing Day upon which the application was made.

15. For the purpose of the foregoing provisions, the Directors and the Administrator shall be entitled to use and rely upon electronically transmitted information from such source or sources as they may from time to time think fit with regard to pricing the Fund's investments in any market.
16. Investors should also note that, under IFRS, investments should be valued at fair value and also that, under IFRS, bid/ask pricing is considered to be representative of the fair value of investments. However, under the valuation basis described above, listed investments are expected to be valued at the official closing price instead of bid/ask pricing as required under IFRS which may lead to a different valuation had the valuation been performed in accordance with IFRS. In addition, the Launching Costs will be capitalized and amortized over one year as mentioned under the section headed "Fees and Expenses". The Directors and the Administrator have considered the impact of such non-compliance and do not expect this issue to affect the results and NAV materially. The Fund will prepare its annual reports and accounts in accordance with IFRS and the assets and liabilities of the Fund will be presented in the audited accounts in accordance with IFRS. To the extent that the valuation basis adopted by the Fund deviates from IFRS materially, the Directors and the Administrator may make necessary adjustment in the accounts of the Fund for the accounts to be in compliance with IFRS. The official NAV calculated by the Administrator may therefore be different from that of the audited accounts of the Fund.

Net Asset Value per Unit

The Net Asset Value per Unit ("**NAV per Unit**") will be calculated by the Administrator, by using the NAV after deducting all fee divided by the total number of outstanding Units of the Fund prior to the relevant Dealing Day, the resultant NAV per Unit will be rounded to the nearest cent. The profit or loss as a result of such rounding shall be at the account of the Fund.

- 6.8 The Directors may, before recommending any income distribution, set aside out of the Fund's profits and carry to reserve such sums as they think proper which shall be applicable for any purpose of the Fund's business or invested on behalf of the Fund in such investments as the Directors deem fit. The Directors may divide the reserve into separate accounts and consolidate wholly or partly any separate accounts into the reserve fund. The Directors may also, without placing the same to reserve, carry forward any profits, which they think it prudent not to divide.
- 6.9 The Fund Company may by Directors' resolution specify that any distribution, allotment or issue to Unitholders shall be paid or made to the persons registered as the Unitholders at the close of business on a particular date, notwithstanding that it may be a date before or after that on which the resolution is passed, and thereupon the distribution, allotment or issue shall be paid or made to the Unitholders in accordance with their respective holdings registered on that date.

- 7.1 Any notice or document shall be given or sent to any Unitholder by sending the same through the post in a prepaid letter addressed to such Unitholder at his, her or its address appearing in the register. Any notice given by post to the local address shall be deemed to have been served twenty-four hours (five days if sent to the overseas address by airmail) after the time when it is posted and, in proving such service shall be sufficient to prove that the envelope containing the notice was properly addressed and stamped and posted.
- 7.2 Notwithstanding the Condition above, notices regarding the Units will be valid if published in one local Arabic and one local English daily newspaper printed in Bahrain.  - 1.2 to sanction the exchange of the Units for or the conversion of the Units into shares, stock, debentures, debenture stock or other obligations or securities of the Fund or any other company formed or to be formed;
 - 1.3 to sanction the release of the Fund from all or any part of the principal monies owing upon the Units;

 - 1.5 to assent to any modification of the provisions of this Instrument (including this Schedule) proposed or agreed to by the Fund.
- 2 At least fifteen Business Days' prior written notice (exclusive of the day on which the notice is served or deemed to be served and of the day of the meeting for which the notice is given) of every meeting shall be given to the Unitholders. The notice shall specify the place, day or hour of the meeting and the general nature of the business to be transacted. The accidental omission to give notice to or the non-receipt of notice by, any of the Unitholders shall not invalidate the proceedings at any meeting.
- 3 The quorum for a general meeting of Unitholders shall be the attendance in person or by proxy of Unitholders who together hold more than half the issued and unreurchased Units. A resolution of the general meeting shall only be valid if Unitholders representing more than one half of the issued and unreurchased Units approve it. If the quorum shall not be obtained the Unitholders may be summoned for another meeting to be held within thirty days following the date of the first meeting. The said second meeting shall be valid irrespective of the number or the issued Unit holding of the Unitholders present. Resolutions of the second meeting shall be passed by a majority of Unitholders present in person or by proxy.

- 4 The person nominated in writing by the Fund Company shall preside at every meeting as Chairman. Any Director and the Secretary, Auditors and Solicitors of the Fund and any other person authorized by the Fund may attend any meeting.
- 5 The Chairman may with the consent of any meeting at which a quorum is present (and shall if so directed by the meeting) adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting, except business which might lawfully have been transacted at the meeting from which the adjournment took place.
- 6 At any meeting a resolution put to the vote of the meeting shall be decided on a poll of all those Unitholders present at such a meeting. Each Unitholder will be entitled to one vote per Unit held.
- 7 The instrument appointing a proxy shall be in writing under the hand of the appointor, or of his attorney, duly authorized in writing or, if the appointor is a corporation, either under the seal or under the hand of an officer or attorney so authorized.
- 8 A person appointed to act as a proxy need not be a Unitholder.
- 9 An instrument of proxy may be in the usual or common form, or in any other form, which the Directors shall approve. A proxy shall be deemed to include the right to demand or join in the demanding of a poll. A proxy whether in the usual or common form or not, shall, unless the contrary is stated thereon, be valid for any adjournment of the meeting as well as for the meeting, and need not be witnessed and shall be lodged with the Administrator not less than forty eight hours before the meeting, adjourned meeting or poll, as the case may be, and shall be valid only for the meeting, adjourned meeting or poll referred to therein.
- 10 A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the principal, or revocation of the proxy, or of the authority under which the proxy was executed, provided that no notice in writing of such death, insanity or revocation shall have been received by the Administrator before the commencement of the meeting or adjourned meeting at which the proxy is used.
- 11 Any company or corporation which is a registered holder of any of the Units may by resolution of its directors, or other governing body, authorize any person to act as its representative at any meeting of the Unitholders and such representative shall be entitled to exercise the same powers on behalf of the company, or corporation which he represents as if he were the registered holder of the Units.
- 12 Resolutions passed at a meeting of the Unitholders, subject to CBB's approval, duly convened and held in accordance with this Instrument, shall be binding upon all the Unitholders whether or not present at the meeting, and each of the Unitholders shall be bound to give effect thereto accordingly.
- 13 Minutes of all resolutions and proceedings at every meeting shall be made and duly entered in books to be provided for that purpose by the Administrator. Any such minutes, if purporting to be signed by the Chairman of the meeting, shall be conclusive evidence of the

matters therein stated and, until the contrary is proved, every such meeting in respect of the proceeding of which minutes have been made shall be deemed to have been duly held and convened and all resolutions passed thereat to have been duly passed.
